# Welcome & News

Welcome everyone to the May edition.

The Annual show has been and gone for another year, but what a show it was! Thank you to all the members that exhibited all of their wonderful koi, it was a great day! You can see the show results from page 5. The summary will follow in a future edition as Shona was unable to have it ready at this time.

The Annual General Meeting will be held on the 10th July at the Northern Branch Meeting. This year is an election year, so we will be asking for nominations from members for positions on the executive committee as well as additional roles and positions which help the club to run. If you are able to assist please ask any committee member for more details you wish to find out about. The official notice is on Page 4

Last call for membership renewals, if you haven't already paid and need more info contact [membership@koiclubwa.com](mailto:membership@koiclubwa.com) or make your payment as soon as possible.

Lastly, the next Auction is 22nd July at Beaufort Park, Bedford. If you are looking to sell please get your bookings in by the 20th to Brett Thomas.

In the meantime, happy koi keeping everyone!

## KSWA Financial Report - April 2018

## 2018 Event Calendar

Tuesday 12th June - Northern Branch Meeting, Wanneroo

Wednesday 27th June - Southern Branch Meeting, Willetton

Tuesday 10th July - Northern Branch Meeting, Wanneroo

Wednesday 25th July - Southern Branch Meeting, Willetton

**Sunday 22nd July - Koi Auction, Bedford**

Tuesday 14th August - Northern Branch Meeting, Wanneroo

Wednesday 22nd August - Southern Branch Meeting, Willetton

# NEXT AUCTION

Sunday 22nd July 2018

## WHERE:

Beaufort Park Hall  
corner Beaufort & Drummond Street  
BEDFORD (near Morley)

## WHEN:

Sunday 22nd July 2018  
Bagged fish sales from 10am  
Auction at 10.30am

## SELLERS:

Book your bin by Friday 20th July  
Fish to be in bins by 9.30am  
Max 10 fish per bin  
Must sell for \$40 minimum

Koi Society of Western Australia

\* Subject to KSWA Bylaws - Auction Rules & Guidelines  
5% - 15% commission applies

# Notice of A.G.M.

## Notice of the annual general meeting of the Koi Society of Western Australia Inc.

Dear member,

This is to advise you of the upcoming annual general meeting of the members of the Koi Society of WA Inc. The details of this meeting are as follows:

Date: 10th July 2018

Time: 7.30pm

Place: Wanneroo Rec Centre, Scenic Drive, Wanneroo.

At the meeting, members will have the opportunity to:

- find out about the KSWA operations and finances
- ask questions about the operations and finances
- speak about any items on the agenda
- vote on any resolutions proposed.

At the meeting, members will be asked to vote to:

- accept the minutes of the last annual general meeting
- accept the annual report
- elect an executive committee

If you wish to vote via proxy, please send your vote to [secretary@koiclubwa.com](mailto:secretary@koiclubwa.com) before the 10th of July 2018. Or it can be made in writing and presented to the secretary before the opening of the meeting.

Regards,

Jun Hua Guo  
President, KSWA

# **AUSSIE KOI WA** INTRODUCES

DracoDrum  
**TO AUSTRALIA**

DracoDrum products consist of the unique 'Drop-in' model and the new standalone models.

- Model range is designed to deal with 10 to 25,000 litre capacity flow
- The 'Drop-in' model fits within existing filtration systems thereby removing any additional footprint
- The standalone model with a unique curved body design which eliminates deadspots and increases chassis strength

DracoDrum is positioned very competitively in the RDF market without compromising on quality

Why consider a DracoDrum RDF over cheaper mechanical filtration methods?-

- Removes particles down to 58microns (less than the width of a human hair)
  - Vastly reduces maintenance and cleaning - you can go away and not worry about your filter clogging up
  - Would you like to eliminate brush and jap matt cleaning?
  - Indeed, would you like to eliminate almost any filter cleaning?
  - Like superior water quality and clarity - that polished effect?
- Be able to 'drop in' a DracoDrum into a current filter chamber, Nexus or vortex?
  - Fit the DracoDrum as a 'stand alone' to an old or new build pond
- It is designed to self clean with mains water pressure, no high pressure pump unit.  
On standby the unit uses less than 12 watts/hr and in full wash mode, 35 watts.

To find out more on the DracoDrum contact the Australian agent-

# KSWA Northern Branch – April Meeting

Date: 10th April 2018

Attendance:19

Apologies: Brett, Shona, Monica

Meeting Opened: 7.40pm

Chairman opened the meeting with a reminder to everyone, that their involvement in the KHV campaign was important and relatively easy for them to register their opposition to the release of KHV in Oz. Allan also mentioned the AKA Koi Show for 2018 which will be held in Sydney.

Kevin had 3 questions for the night.

- What do the members do when predators attack your pond? (cats and birds) general response was to put a bird net over the pond and remove any source of food that may attract them.

- Second question, were other members experiencing loss in water level and if so where were they losing it from and how much? The general response was, that everyone loses a certain amount of water, generally in summer, due to evaporation. Most of us have experienced the dreaded pond leak!. These can be from a number of sources but important to ensure quality of pond build and all pipe connections during the pond build. Seldom does a leak repair itself and generally they only get greater. Some of the modern pond sealants like 'Gold Seal' will fix most leaks that are reachable to allow a repair.

- Third question, the Members give their Koi fish treats? General response was not on a regular basis when just the normal regular feeding was undertaken. Getting nearer to the Annual Show and from time to time, members are giving their koi, watermelon, Chinese cabbage, oranges when in season and Christmas day treat of mussels.

8.10pm Coffee Break

Table Show- Results ( Judged by Ryan, Barry and Phong)

Gosanke	Non Gosanke
1st Sanke - Bin 2	1st Kujaku - Bin 3
2nd Kohaku - Bin 3	2nd Goshiki - Bin 6
3rd Kohaku - Bin 1	3rd Goshiki - Bin 5
GinRin	Doitsu
No entries	1st Kohaku - Bin 1

Allan did a presentation on Gill and Body Flukes on koi. It is almost impossible to completely eradicate these pests but important for hobbyists to keep them in check. A brief presentation on both parasites was presented with the main aspects of life cycle and methods of control, discussed. There are a number of commercial treatments available but generally speaking the best all rounder and the treatment favoured by most members is Potassium Permanganate or PP. Members were advised to ensure they measured quantities of PP accurately before putting it into their ponds. The quantity of 1.5 grams per 1000 litres was suggested as relatively safe but ensure plenty of air in the pond.

The meeting finished with a presentation on the Kawarimono class of koi. This is the 'catch all class'

# KSWA Northern Branch – Continued

CHASE THE ACE: First attempt was Jarrod and then Des with no winners this time round, good luck for next month is now up to \$450 in the kitty.

Raffle this month was won by Allan Bennett which was kindly donated by Tom.

Meeting closed at 9.05pm

# KSWA Northern Branch – May Meeting

Date: May 8, 2018

Attendance: 18

Apologies: Brett and Ryan

Meeting Opened: 7.35pm

Shona started the meeting off with a reminder of the up and coming Koi Show closing date will be the 18th May for the show, judges will be a husband and wife team from the Netherlands. Shona wanted to remind members about the dinner presentation night to be held on Monday evening 28th May at Willow Pond, good luck to all participants.

Martin had 3 questions for the night the first being, How much oxygen should be in your pond? The general response was between 6-12 parts per million, unfortunately due to equipment being so high in cost most members put as much oxygen into the water as possible instead of measuring it.

Second question for the night was, Does excessive feeding shorten life spans of Koi? General response was providing the filter system can handle the high amounts of feeding and the quality of the water is good this should not affect the life span of the Koi.

Third question for the night was, If you think your Koi has anchor worm how often do you pp your pond? General response was due to the life cycle of anchor worm one week apart is rule of thumb but AB is going to look into this further and provide an update.

12 bags of baby Koi 3 in each bag were raffled off to members for \$25 each bag yes just \$8 each!! The proceeds kindly donated to the Northern Branch. These fish were high quality platinum and yamabuki Ogons. The female mother, is from Barry's current KSWA Variety Champ and the male is a high quality fish from Alan. Our thanks to both Barry and Alan and to AB who grew on the fish and donated to the Members.

8.30pm Coffee Break

Table Show – Results ( Judged by Paul and Jarrad)

Gosanke

1st Kohaku (3 step) – Allan Bennett

2nd Kohaku (white tail stop) – David Brown

3rd Kohaku – Allan Bennett

Non Gosanke

1st Goshiki (6 step) – David Brown

2nd Goshiki (lightning zuma) – David Brown

3rd Goshiki – David Brown

Ginrin

1st Karashigoi – Kevin Crook

2nd Bekko – David Brown

# KSWA Northern Branch – Continued

Paul gave a presentation on adding minerals in water for example bentonite, magnesium and imported clay to improve water quality.

CHASE THE ACE: First attempt was Dez followed by Jun unfortunately no winners this month, the jackpot is now sitting at \$500. Dez will be our next months 3 questions, we will be waiting in anticipation to see what he has up his sleeve for us all.

Good luck to everyone this weekend at this years Annual Koi Show,we look forward to seeing you all there.

Meeting closed at 9.45pm

# KSWA Southern Branch – April Meeting

Date: April 25 2018

Attendance: 7

Apologies: Jocelle, Rodney, Alan

Meeting opened 7.40pm

Jun welcomed everyone and thanked them for coming.

## Southern Branch April Financials:

Opening Balance: \$1,719.45

Income: \$0.00

Expenses: \$8.40

Closing Balance: \$1,711.05

Everyone was reminded about the upcoming show and that entries are now open online. Entries must be in before 11.59pm on Friday 18 May 2018. It was then asked if a Table Show / Young Champion class fish can be also entered into the main show "class x" as it is not indicated in the show entry pack. The committee will discuss the pros/cons before tabling it at the branch meetings.

## General Discussion:

Using high flow –aquarium pumps (2000-3000L) for fry ponds and breeding. They are cheap and efficient.

Some people have been experimenting with compost piles to heat up their pond water. Jun found an example that increased water temperature in the pipe to 50 degrees Celsius, which in turned increased the water temperature by around 2 degrees. Not a bad idea, but it was noted, that the compost pile needs to be turned over and new compost added regularly to keep the system warm.

## pH presentation

Jun recently got his rainbow trouts and is feeding around 300-400grams of food a day. K1 (Moving Bed Biofilm Reactor - MBBR) is proactive in converting Ammonia to Nitrite to Nitrate. In the process, it consumes carbonates in the water and without careful monitoring can causes pH crashes and filter bacteria to die (K1 turning white). Jun showed a video of Rob Bob's Backyard Farm & Aquaponics taking about reducing his Ph (<https://www.youtube.com/watch?v=eO1pHM7Afuw&t=700s>); which is not required in most aquaponics systems. Jun has been doing a lot of research and has concluded to adding a combination of Dolomite and baking soda (products with carbonates) to increase his pH.

Break – Thank you to Miki for organising the nice slice of cake.

Table Show Results (Judged by Fred and Jun), thanks to Tony for bringing in his fish:

Class A (Go Sanke)

1st Kohaku, 2nd Kohaku, 3rd Kohaku

Class B (non Go Sanke)

1st Kujaku, 2nd Kujaku, 3rd Goshiki

Class D (Gin Rin)

No fish

# KSWA Southern Branch – Continued

Class D (Doitsu/ Leather)

1st Hariwake, 2nd Ogon, 3rd Hariwake

## Nitrates presentation

As a result of heavily feeding, most people have high nitrates. Jun has been experimenting with aquaponics to try to reduce his nitrates for his rainbow trout. He is currently growing spinach, silver beet, basil, snow peas, lettuce, mint, beetroot and rocket in a 3 IBC – Deep Water Culture systems. His plants were doing well for the first few weeks before he came into some nutrient deficiency issues. Jun showed another video (<https://www.youtube.com/watch?v=Lgtue6tbbhc>) outlining plant nutrients and their requirement. As a result, Jun has been adding Sulphate of Potash for Potassium, Dolomite lime for Calcium and Magnesium + buffering pH, Iron. At the end of the day, it was agreed that it is much cheaper to buy the Asian greens, with the exercise being an attempt to reduce nitrate levels only.

It was also agreed that there would be no Southern Branch Meeting in May as it is 2 days before the Koi Show weekend. Southern Branch Members are invited and encouraged to attend the next Northern Branch meeting on Tuesday 8th of May in Wanneroo.

Also thanks to Allan for bringing in some lime.

Meeting closed at 9.30pm.

Next meeting is schedule on 27th June.

# KSWA Sales Table

The sales table is an initiative of the KSWA to help members source quality pond and koi products at better than retail prices, a benefit of being a member of the club.

All proceeds from the sales table are used as a fund raiser for the clubs needs.

The Sales table is available at each branch meeting and some other club events.

Please support your club by purchasing items through the sales table.

**New stock of Koi & Fry food has been ordered. Available at KSWA meetings. Contact Jun on 0423 410 681 if you would like bulk food.**

**Portable DC Air Pump** - 40L/min, 80L/min & 120L/min

**Water Conditioners/Dechlorinator** - 0.5L, 2.5L & 5L

**Bacteria Clarifier** - 85g

**Koi Food** (Ocra Quick Grow, Ocra What Germ & SEKERIN)  
available in small and medium sizes + fry food - 1kg & 10kg bags

## **Koi Treatments**

Koi Anti Parasite, Anti Ulcer, Anti Bacteria, Fungus Control etc

## **Miscellaneous**

Koi 66 Variety poster & Illustrated Bible on Koi Keeping.

**API Freshwater Test Kits** - As Below
